

Cibes B1000

The open design platform lift which provides accessibility to the next floor level

Cibes B1000 with a self-supporting design for simplified installations, mainly outdoors but also indoors.

- Easily installed directly on the ground.
- Hold to run control.
- Accessibility for everyone to the next floor level.
- Travel 3 metres (min. 0.5 metres).
- Doors lock automatically.
- Standard design – straight through access.
- Optional design – adjacent access.
- Laminated glazed panels.

Comfortable & easy to use

Runs smoothly and silent. Simply press the hold-to-run button to the desired floor level.

Safety

Safety edges, emergency lighting and an alarm button guarantees complete safety.

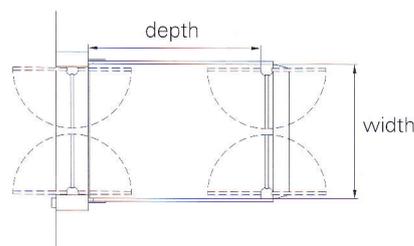

Quickly installed

Cibes B1000 is delivered in two parts, a guide frame and a platform, which are easily assembled. No pit is required. Supplied with an integrated ramp which facilitates installation work and cuts costs.

CE marked

Cibes B1000 is in compliance with all of the relevant essential Health and Safety requirements.
